

FIGHTING FOR YOUR AMBULANCE SERVICE

Despite numerous meetings with management there has been a severe lack of meaningful engagement to address our members concerns for the long term future of the **NATIONAL AMBULANCE SERVICE**.

OUR MEMBERS ARE CAMPAIGNING FOR:

1. Publication of the Capacity Review

This will inform the general public, the health service employers and the incoming Government of what is required to grow for the **NATIONAL AMBULANCE SERVICE** to grow and thrive into the future

2. The implementation of fully developed Intermediate Care Services as per LCR 20313

LCR 20313 will deliver routine and general transfer of ambulance workloads that enable emergency personnel to concentrate on frontline response

3. Stable hours, Stable incomes

Annualised hours will deliver a cost effective **NATIONAL AMBULANCE SERVICE** that serves the best interest of the general public

4. Our roles and responsibilities to be reviewed

SIPTU Ambulance Professionals play a crucial role in our society this should be reflected in opportunities for professional development and progression.

HAVE YOUR SAY ON THE FUTURE OF OUR NATIONAL AMBULANCE SERVICE

Please check with your local shop steward to make sure your address details are correct in to order to receive a ballot paper
